

Empowering Africa's Brightest Minds.

OUR MISSION

We educate and empower Africa's brightest minds to compete globally and solve the continent's most pressing problems through technology.

OUR VISION

A future where Africa has a thriving, humane, and sustainable technology ecosystem that builds world-class solutions and improves everyday life across the continent.

TOP TECHNOLOGY PARTNERS

We collaborate with the world's leading technology companies to share expertise and create opportunities for Africa's top tech talent.

TOP UNIVERSITY PARTNERS

We partner with leading African universities to identify, develop, and empower high-potential tech talent across the continent.

TRAINED **1200+**
Software Engineers

SECURED **120+**
Top Tech Job Offers

A PROVEN EDUCATION MODEL

SCALABLE PROGRAMS

A2SV has developed education, incubation, and event programs that can be launched virtually anywhere in the world in a quick and cost effective manner.

PROVEN IMPACT

With a **\$4M budget**, A2SV trained 1,200+ engineers, secured 120+ top tech offers, and incubated 20+ digital products in just five years.

TRANSPARENT RESULTS

Our operations and outcomes are transparent, with accountability at every level. Results are shared regularly through annual impact reports.

LONG-TERM SUSTAINABILITY

A2SV is building a self-sustaining nonprofit model, gradually shifting from external funding to earned revenue generated by our homegrown tech ventures.

WHY PARTNER WITH US?

TOP AFRICAN UNIVERSITIES

Partner with A2SV to identify and develop high-potential students on your campus and connect them to world-class training and opportunities.

TOP TECH COMPANIES

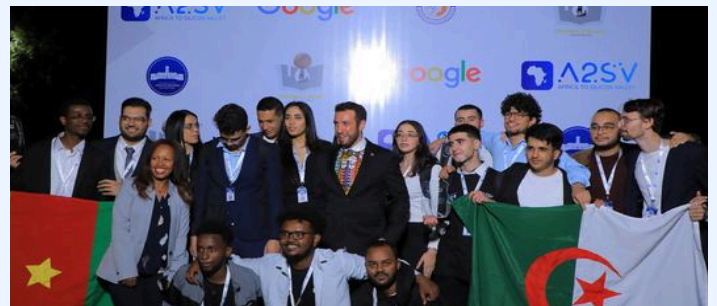

Join as a hiring partner to access a strong pipeline of African engineers, and support the ecosystem through mentorship, workshops, or sponsorship.

DEVELOPMENT PARTNERS

Support a proven model that delivers measurable outcomes at scale through grants, joint initiatives, or in-kind support that strengthens communities.

AFRICAN GOVERNMENTS

Partner with A2SV to build a skilled workforce and accelerate innovation, job creation, and digital transformation across your country.
